Pitot Tube Covers

DESIGNED FOR PILOTS BY PILOTS

PitotShields Safety Pitot Covers

7500 9/16" - 3/4" Tube

7501 Blade Type

7502 5/8" Tube

Applications:

7500 9/16" - 3/4" Tube
Cessna 100's, 200's, 336, 337, other 3/4" tube-type pitot probes

7501 Blade Type
Piper PA24; older PA32; PA44; Rockwell Commander; RV's, other aircraft with Piper blade-type pitot probes

7502 5/8" Tube
Cirrus; PA23, PA24, PA30, PA39; later PA32, PA31, PA34, PA46, Beech singles, Beech twins, Grumman GA-7; Columbia 300, 400; Cessna 300's; Cessna 400's; Socata; other 5/8" tube-type pitot probes

Featured in Aviation Safety magazine, the patented **PitotShield™** pitot cover is designed specifically for light general aviation aircraft. The first and only pitot cover designed to self-disengage from the pitot tube if left on prior to takeoff, the **PitotShield™** is used by thousands of pilots worldwide. Their testimonials reveal the value of this fail-safe cover as a key to their safety.

- Release from pitot tube at specific velocity, falling away harmlessly
- Offer low-cost protection for pilots and passengers.
- Provide full protection of pitot tube from contamination while plane is on the ground
- Feature high-visibility, durable vinyl construction with teflon inserts
- Comes in designs for both blade-type and round-type pitot tubes
- Will float if disengaged during water takeoffs

PitotShields™ fit a wide range of light general aviation aircraft, including:

- Commander
- Cessna 100-200-300-336-337-400
- Columbia 450
- Maule (Early)
- Socata TBM's
- Beech
- Socata Pistons
- Grumman American
- Piper

...and many more

5065 Beech
5/8" Round

Piper PA24; older PA32; PA44; Rockwell Commander; RV's, other aircraft with Piper blade-type pitot probes

5065 5/8" Tube
Cirrus; PA23, PA24, PA30, PA39; later PA32, PA31, PA34, PA46, Beech singles, Beech twins, Grumman GA-7; Columbia 300, 400; Cessna 300's; Cessna 400's; Socata; other 5/8" tube-type pitot probes

Classic Urethane Pitot Covers

If you want durable protection for your airplane pitot probe, one of our Classic Urethane Pitot Covers will probably fit the need. Designed for 5/8" and 3/4" round or blade-type pitot tubes, our polyurethane line of pitot covers feature bright red, flexible construction that engages over the pitot tube for long-term protection. The integrated, reinforced vinyl RBF flag provides maximum visibility day or night.

PitotShield V2™
SmartCover™ Technology for Turbine Aircraft

Coming Soon!

Universal Fit SmartCover™ for Aircraft Heated Pitot Tubes

NEXT GENERATION PROTECTION

Technology That Prevents Accidents

If PitotShield V2™ is left in place, it will disengage from the pitot tube within minutes of startup. No RTO. No incident/ accident. No runway FOD. No melted mess on pitot tube.

4935 *Classic Bootie Pitot Cover*

4935E *High Visibility Bootie Pitot Cover*

Bootie Pitot Covers

Our original Classic Bootie pitot cover is designed with durable, cushioned vinyl with extra-long genuine Velcro® retaining strap and Naugahyde® red RBF flag with bright white lettering.

Our exclusive next-generation High Visibility Bootie features cushioned, daytime-contrasting Bright yellow Naugahyde® boot, and a high-visibility reinforced vinyl RBF flag with an omni-directional reflective tip for nighttime recognition.The retaining strap features genuine Velcro™ for strength and long-lasting durability.

From our original, Classic Bootie pitot cover to the next-generation High-Vis Bootie, these covers fit most round pitot/static tubes and other probes on a wide range of general aviation, VL jets, drones and other defense aircraft.

Only DeGroff Aviation sews each product individually using exclusively heavy-duty polyester thread for UV-resistance and long life.

DeGROFF AVIATION TECHNOLOGIES™

PRODUCT UPDATE!

Coming Soon: New Advanced-Technology Wheel Chocks for Turboprops, Bizjets, Regional Jets, and Heavies.

5813 *Do Not Tow*

Remove Before Flight

This is the number one multi-purpose RBF streamer on the market. We sell thousands of these every year. They feature bright, high-visibility red reinforced vinyl, with brass grommet and one inch securing ring. Printing is gas, oil, solvent and UV-resistant.

17" long x 1-3/4" wide.

4604 *Remove Before Flight*

Do Not Tow & Out of Service Streamers

Protect your investment with our Duty Safety Streamers. These feature Heavy-Duty nylon straps with brass gromets and genuine Velcro® for a secure attachment.

5811 *Out of Service*

C-Lite Wing Tip Nav-Light Detector

Precision-machined from 1/8" thick impact-resistant, lightweight polycarbonate. These 5-1/4" tall indicators internally reflect transmitted light from the nav-lights and strobes to the pilot, indicating proper function and ensuring that your aircraft is maximally visible.

5097 *C-Lite Wing Tip Nav-Light Detector*

Instrument Cover-Ups

Vinyl static cover-ups are ideal for partial panel practice or actual instrument failure. Reusable. Three per package. Round and Rectangle cover-ups available.

5197 *for Round Instruments*

5198 *Rectangular for Glass Panels*

Prop Banners: FOR SALE & FOR RENT

Our prop banners feature REAL Velcro™ – not the cheap imitation – which means secure enclosure even in windy conditions, and long-lasting product life. Each of our Prop Banners features two 28" x 8" eye-catching bright red reinforced vinyl panels with huge bright white letters and three white, yellow, and blue pennants sure to attract attention. The banners are attached with genuine Velcro® for security and even have an integrated vinyl pocket for business cards.

5815 *For Sale*

5816 *For Rent*

Portable Anchor Kit

Portable kit comes with carrying bag; three 17" x 3/8" plated steel corkscrew stakes, and three 10' x 3/8" black and orange polypropylene ropes.

5096 *Portable Anchor Kit*

PilotShields Aviator Sunglasses

The only sunglasses designed by a pilot and eye doctor specifically for pilots. 100% UV protection to reduce risk of developing cataract and macular degeneration.

7520BZ *PilotShield Pro Bronze Lens (shown)*
7520GG *PilotShield Pro Grey/Green Lens*

EZ Lock Tie Downs

Allows for simple, one-person tie-down of aircraft, with no knots to tie. Perfect for simple, locking tie-down of your aircraft. Features weather-resistant, oil-resistant and gas-resistant polypropylene rope for long product life.

5901 *EZ Lock Tie Downs*

5904-Y *Handy Chocks*

Handy Chocks: Yellow & Red

Our Handy Chocks work perfectly for CIRRUS and other aircraft with full wheel pants. Avoid damage to your shiny wheel pants from large chocks that are found on many ramps. Fabricated with lightweight aluminum, each package of two includes a bungee cord and vinyl covered hook so you never leave one behind. Powder coated in red or yellow.

5904-R *Handy Chocks*

WickShield Static Wick Safety Flag

- Affordable to buy - Eight flags per package
- Protect your customers and maintenance staff
- Lightweight - 17" x 1-3/4" flag with adjustable Velcro® closure for secure fit.
- High visibility colors

4610 *WickShield Static Wick Safety Flag*

Crew Luggage Tag

Don't let your luggage get mixed with your passegers'. Degroff Aviation CREW LUGGAGE TAGS are printed with high visibility on both sides and have genuine leather straps for quality and durability.

6001 *Crew Luggage Tag*
